

ChBE Honors Co-Op / Internship / REU Approval Form

Submit this form to the honors program chair in the first month of a co-op or internship term. Once approved, you can sign up for CHE 497 for 3 credits in a semester following your co-op or internship.

Student Name:

Crimson E-mail address:

CWID:

Credit Hours Completed at UA:

UA GPA, must be 3.3 or higher (not overall GPA):

Have you completed a previous co-op, internship or REU term?

If yes, with which Company/Institution

Current co-op/internship/REU where you are applying for honors credit:

Company/Institution

Location

Supervisor

Include at least one of the following:

Supervisor's Phone Number

Supervisor's E-mail Address

Project title:

Dates of Project Work for this work term:

Attach a 1-2 page summary of the work planned, how it relates to chemical and biological engineering, and what the expected results will be. This should be coordinated with the supervisor, with their approval noted by signing a copy of the plan and scanning/returning the document to the chemical and biological engineering honors program coordinator along with this form. The application and work plan will be reviewed, and the project approved or suggestions will be made for alterations to meet academic-specific requirements at The University of Alabama. Once approved, a student will be cleared to sign up for 3 credits of CHE 497 (Honors co-op/internship) in the semester following the co-op or internship project, where the work will be presented on campus.
